SUBJECT INDEX

A

Acquired immune deficiency syndrome (AIDS)
  comprehensive planning for services, 5:40
Acting position
  dynamics of, 6:33
Acuity systems(s)
  estimating nursing costs from, within a DRG (contact hours), 7/8:10
  productivity standards inherent in, 1:25
Agency nurse(s)
  issues in employment of, 11:7
  AIDS. *See* Acquired immune deficiency syndrome
Ambulatory care, *See* Outpatient care

B

Behaviorally anchored rating scales (BARS)
  performance evaluation using, 10:40
Book review, 3:6
Budgeting
  as management tool, 11:25
  for nursing research program, 5:9

C

Care plan(s)
  written or standardized, patient outcomes and (letter), 3:24
Case management
  cost and quality outcomes, 5:23
  in leveled practice, transition to, from primary nursing, 10:36
CEUs. *See* Contact hours
Charting. *See* Documentation
Chemical dependency. *See* Substance abuse
Clinical nurse specialist(s)
  use in U.S. hospitals, 9:31
  value of, 2:5
Clothing
  impact on client-consultant relationship, 2:7
Communication. *See also*
  Telecommunication; Writing among management staff, group experience to foster, 6:41
Computer(s)
  implementing an integrated clinical information system (contact hours), 12:28
  potential of expert systems in nursing (contact hours), 6:26
  telecommunications applications, 10:24
Conceptual model(s)
  for shared governance (contact hours), 1:37
  professional practice, articles needed (letter), 3:9
Consultant(s)
  clothing's impact on client-consultant relationship, 2:7
directory of, 2:39, 7/8:43
Contact hours
  costing out nursing services based on acuity, 7/8:10
  functions and responsibilities of operating room director, 9:6
  identifying components of nursing service philosophy, 10:29
  implementing an integrated clinical information system, 12:28
  making shared governance work, 1:37
  management development program for middle level managers, 5:11
  managing organizational mergers, 3:10
  plan development for nurse recruitment-retention program, 2:20
  potential of expert systems in nursing, 6:26
  strategic planning, 4:12
  understanding organizational culture, 11:16
Contingency theory
  application to nursing administration to reduce turnover, 6:22
Cost containment. *See also* Budgeting; Financial management
  allocation systems for nursing labor cost, 12:16
  costing out nursing services based on acuity (contact hours), 7/8:10
  increasing staff awareness of charting requirements and costs for patient care items, 9:16
  tracking cost while keeping quality alive, 4:7
Creativity
  among management staff, group experience to foster, 6:41
  of employees, system to encourage intrapreneurship, 12:20
Culture
  organizational, decision making and (contact hours), 11:16

D

Data base access
  through microcomputer telecommunications 10:24
Decision making
  developing brokering skills of nurse managers, 6:18
  in participative management (letters) 3:9
  organizational culture and (contact hours) 11:16
  styles of, application of type theory, 12:5
Delegation
  readings on, 4:39
Director(s) of nursing
  problems in new management contracts, 10:5
Documentation. *See also* Care Plan(s) of patient care items, increasing staff awareness of need for, 9:16
DRGs
  using acuity system to estimate nursing costs under (contact hours), 7/8:10

E

Editorials, 3:4, 6:5, 6:7, 7/8:4
Education. *See also under* Nursing administration
  business and nursing dual-degree program, 4:6
  financial management seminars, 6:13
  in business administration, value for nurse administrators (editorials), 6:7
  needs of nurse administrators, 2:4
Ethics
  establishing a nursing bioethics committee 3:30
  readings on, 11:42
Executive development
  designing health delivery systems, 9:3
  fundamental elements of nurse executive practice, 6:9
  incorporating patient satisfaction standards into quality of care measures, 11:5
  tracking cost while keeping quality alive, 4:7
  value of clinical nurse specialists, 2:5
Executive search firm use of (editorial), 7/8:4
Expert system(s)
  potential in nursing (contact hours), 6/26

F

Fall(s)
  reducing incidence of, in high risk patients, 7/8:24
Financial management. *See also*
  Budgeting; Cost containment
  cost allocation systems for nursing labor costs, 12:16
  costing out nursing services based on acuity (contact hours), 7/8:10
  developing cost-effective clinical preceptorship program, 1:31
  effectiveness of retention activities, 3:25
  overtime payment methods, 4:19
  seminars to develop skills in, 6:13
  trends in hospital size, occupancy and profitability, 10:5
  writing a winning business plan, 10:15
Focus paper
  method for discussing nursing issues (editorial), 3:4
Foreign-educated nurse(s)
  issues in recruitment of, 11:7
Funding
  for research, influence on organization's credibility and fiscal affairs, 3:7

H

Head nurse(s). *See also* Nurse manager(s)
  role responsibilities in primary vs. team nursing units, 5:7
Health care rationing
  effects on care for poor, 1:8
Health care trends
  declining size, occupancy and profitability of hospitals, 10:5
  effects on care for poor, 1:8
Hospital(s)
  declining size, occupancy and profitability of, 10:5
  magnet, 1:13, 2:11
  nursing administration research in, 2:28

I

Image
  clothing's impact on client-consultant relationship, 2:7
Information service(s)
  access through microcomputer telecommunications, 10:24
Information system(s)
  integrated clinical, implementation of (contact hours), 12:28
Innovation
  tapping employee creativity, 12:20
Intrapreneurship
  tapping employee creativity, 12:20

J

Job satisfaction
  factors contributing to, 5:18

L

Leadership
effects of organizational structure on 10:10
Legal issues
nurse executive's potential liabil ity for malpractice, 1:5
nursing work assignments, 4:9
testifying in legal actions, 7/8:5
Letters to the Editor, 3:9
Leveled practice
transition to case management in, from primary nursing, 10:36
Liability
nurse executive's, for malpractice 1:5

M

Malpractice
nurse executive's potential liability for, 1:5
Management
definitions and descriptions of middle level managers, 10:6
development program for middle level managers (contact hours), 5:11
dynamics of holding and acting position, 6:33
financial, *See* Financial management
Management Concepts for the New Nurse (book review), 3:6
of organizational mergers (contact hours), 3:10
participative (letters), 3:9
preparation of middle managers, 3:6
service line, delivery of nursing services under, 11:32
span of control in, 5:34
Management readings
ethics, 11:42
networking, 2:38
nursing research textbooks, 10:45
stress, time management and delegation, 4:39
Medication error(s)
method of administration affects error rate, 4:29
Mergers
managing organizational mergers (contact hours), 3:10
Myers-Briggs Type Indicator
managerial application of, 12:5

N

Networking
in nursing research, 2:19
readings on, 2:38
Nurse administrator(s). *See* Director(s) of nursing;
Nurse executive(s). *See also* Director(s) of nursing; Nurse manager(s)
characteristics of effectiveness of, 12:00
definitions and descriptions of, 10:6
fundamental elements for success, 6:9
potential liability of, for malpractice, 1:5
preparation of, 2:4
preparation of, analysis of academic programs, 5:8
role stress and coping strategies of, 3:34
Nurse manager(s). *See also* Head nurse(s); Nurse executive(s)
developing brokering skills of, 6:18
first-line, optimizing span of control of, 5:34
middle level, definitions and descriptions of, 10:6
middle level, development program for (contact hours), 5:11
middle level, preparation of, 3:6
Nurse profile(s)
development and use of, 5:33
Nursing administration. *See also* Management
academic programs in, 5:8
business and nursing dual-degree program, 4:6
curriculum for middle management, 3:6
definitions and descriptions of nursing middle manager and nurse executive, 10:6
education in, 2:4
Nursing department(s)
contractual model for, 9:20
redesigning, to cut costs, 9:3
Nursing issues
focus paper for discussion of (editorial), 3:4
Nursing process
promoting to nurses, through marketing strategy, 11:37
Nursing resource(s)
promotion of, 3:38
Nursing shortage. *See also* Recruitment; Retention
a myth, 1:4
solutions to, 11:7
Nursing Staff Organization
establishment of, 9:20
Nursing theory. *See* Conceptual model(s)

O

Observation
short stay unit area for, 10:20
Operating room
functions and responsibilities of director (contact hours), 9:6
Organization(s)
culture of, decision making and (contact hours), 11:16
managing mergers of (contact hours), 3:10
structure of, effects on nursing leadership, 10:10
Orientation
clinical preceptor program for, 1:31
Outpatient care
establishing community nursing center, 5:31
Overtime
methods of payment for, 4:19

P

Patient classification system(s). *See* Acuity system(s)
Patient satisfaction
incorporating standards of, into quality of care measures, 11:5
Pediatrics
observation in Short Stay Unit, 10:20
Performance evaluation
behavior-based methods for, 10:40
Philosophy
identifying components of (contact hours), 10:29
Planning
strategic, practical model for (contact hours), 4:12
writing a business plan, 10:15
Poor
health care for, 1:8
Poster session(s), 7/8:29
Preceptor(s)
in clinical orientation of new nurses, 1:31
Primary nursing
head nurse's responsibilities under, 5:7
transition to case management in leveled practice from, 10:36
Productivity
standards inherent in acuity systems, 1:25

Q

Quality assurance
applied to nursing, 5:33
incorporating patient satisfaction standards into measures of quality of care, 11:5
Quality assurance nurse(s)
aiding development of, 4:30

R

Recruitment
of foreign-educated nurses, 11:7
plan development for recruitment-retention program (contact hours), 2:20
using an executive search firm (editorial), 7/8:4
Research
budgeting for, 5:9
building credibility, 1:7
developing manual for, 10:8
functions of nurse researcher, 7/8:8
influence of research funding on organization's credibility and fiscal affairs, 3:7
in service settings, through consortium, 2:32, 3:19
networking in, 2:19
nursing administration, in hospitals and schools of nursing, 2:28
Nursing Research Committee, 12:37
textbooks on, 10:45
Resource team(s)
structure and use, 4:34
Retention
application of contingency theory to explain, 6:22
as solution to nursing shortage, 11:7
effectiveness of strategies for, 3:25
plan development for recruitment-retention program (contact hours), 2:20
system changes needed to improve, 1:4
using turnover indices and surveys to improve, 7/8:17

S

Scapegoating, 9:25
Schools of nursing
nursing administration research in, 2:28
Service line management
delivery of nursing services under, 11:32
Shared governance
conceptual model for (contact hours), 1:37
Short Stay Unit
for observation, 10:20
Social support group(s)

to buffer stress, 2:3
Staffing
legal issues of nursing work assignments, 4:9
structure and use of resource teams, 4:34
Stress
coping strategies of nurse executives, 3:34
readings on, 4:39
social support groups to buffer, 2:3
Strike(s)
by support services employees, 5:19
Student nurse(s)
policies and procedures for scheduling, 9:32
Substance abuse
recognizing risk factors for, 12:12

T

Task oriented performance evaluation systems (TOPES), 10:40
Team nursing
head nurse's responsibilities under, 5:7
Telecommunication
by microcomputer, 10:24
Time management
readings on, 4:39
Trauma care
nursing's role in development of systems for, 4:22
role of trauma nurse coordinator in, 7/8:34
Turnover. *See also* Retention
indices of, to predict staff shortage, 7/8:17

U

United States government
budget cuts' effect on health care for poor, 1:8

W

Workload
finding productivity standards in acuity systems, 1:25
Writing
business plan, 10:15
focus paper to discuss nursing issues (editorial), 3:4
